

Petz

Glason is a 100% family owned business based on the Central Coast of New South Wales. We manufacture and supply a range of specialised products for domestic and commercial use for animals.

Our products are designed to be safe for both the animal and the user and help ensure a better environment.

The Glason Petz range has been designed to work in the following areas:

- **Odour Control**
- **Sanitising**
- **Cleaning**
- **Sealing**
- **Demonstrations and Advice**

Each product has been strictly manufactured to ensure a high level of consistent quality and safety.

**Glason Petz,
the standard others
strive for.**

Odour Control - Sanitising - Cleaning

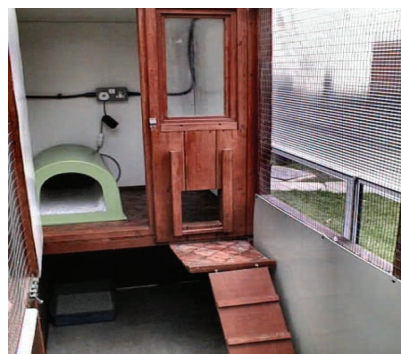

Animal House

Air-Tech ANIMAL HOUSE is a highly concentrated detergent manufactured and supplied in powder form to provide the user with a powerful yet safe detergent for cleaning animal stalls, aviary floors and general pet soiling.

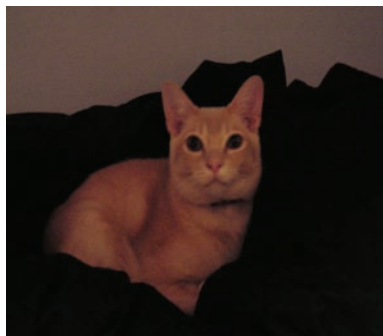

- Dissolves oil, grease, blood, urine and faeces **FAST**.
- Cost effective –750g of ANIMAL HOUSE = 20 litres of concentrated detergent. That means 750g =600 litres of ready to use cleaner.
- Easy to measure - No more waste.
- Supplied as a powder - No more heavy drums.
- Safe - contains no caustics or chlorine which means no more burns for you or your animals.
- Can be used on all hard surfaces and fabrics.

Ideal for: Catteries, Kennels, Stalls, exercise areas, washing Bedding, Cement, Tiles etc.

Sizes: 1.5kg, 6kg.

Breeze

Air-Tech Breeze Petz is the product of a new and safe technology that literally destroys odours while adding a fresh pleasant fragrance to the air. A small amount of the finely atomised mist is generally sufficient to attack and destroy most air borne odours. Breeze is not just an air freshener for air borne odours, but may be applied to most fabrics and any absorbent surface.

- Safe and effective against typical animal odours.
- New technology actually destroys odours by simply and safely converting them to a harmless, non toxic salt.
- Product contains no alcohols and is **water based**.
- Contains no caustics, chlorine or acids.
- Non Toxic – **100% Safe**

Sizes: 500ml, 5 Litre and 15 Litre

Neutrasan

AIR-TECH NEUTRA-SAN is a scientifically tailored safe chemical system for eliminating the resident odours in concrete and other porous surfaces while **sanitising** to help destroy germs and bacteria. **Rid Urine Smells** Resident odour is the nasty smell that remains after cleaning.

NEUTRA-SAN is designed to "chase" into the surface and destroy the cause of these odours not just mask it with a pretty perfume.

- Safe and effective against typical animal odours.
- Can be used on any porous surface or on most fabrics.
- Penetrates porous surfaces to attack "resident" odours
- Contains a sanitiser base to aid in the elimination of germs.

Ideal for: Catteries, Kennels, Stalls, exercise areas, washing Bedding, Litter trays etc.

Sizes: 2 Litre, 5 Litre 15 Litre
